1. Nature of operations

Eastern Platinum Limited (the "Company") is a platinum group metal ("PGM") company engaged in the exploration and development of PGM properties located in various provinces in South Africa. Since August 2013, the Company's projects have been either in care and maintenance or on hold. The Company's shares are listed on the Toronto Stock Exchange and the Johannesburg Stock Exchange. The head office, principal address and records office of the Company are located at 1080 – 1188 West Georgia Street, Vancouver, British Columbia, Canada.

These condensed interim consolidated financial statements were approved and authorized for issuance by the board of directors on November 14, 2016.

2. Basis of preparation

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*.

The preparation of these unaudited condensed interim consolidated financial statements is based on accounting principles and methods consistent with those used in the preparation of the audited consolidated financial statements as at December 31, 2015, amended, where applicable, by the adoption of the new and amended accounting standards outlined in Note 3. The accompanying unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2015. The Company's interim results are not necessarily indicative of its results for a full year.

Going Concern
These unaudited condensed interim consolidated financial statements, including comparatives, have been prepared on the basis of accounting principles applicable to a going concern, which assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

In late 2012, the Company suspended funding to its Eastern Limb projects and on August 1, 2013, the Company ceased production at its Crocodile River Mine. As at September 30, 2016, the Company does not have any producing operations and does not generate income other than interest and other income. However, as at September 30, 2016, the Company has sufficient funds to satisfy its commitments for more than one year. Additional funding will be required to develop and bring the Eastern Limb projects into commercial production. There can be no assurance that additional funding will be available to the Company when needed or, if available, that this funding will be on acceptable terms.

Judgments and estimates
The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, and revenue and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Areas of significant judgement and estimates made by management for the three and nine months ended September 30, 2016 includes the determination of the closing date of the acquisition of certain of the Company's non-controlling interest and estimating the fair value of share-based payment transactions. Additional judgments made by management in the application of IFRS that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the current and following fiscal years are discussed in Notes 4(w) and 4(x) of the Company's audited consolidated financial statements for the year ended December 31, 2015.

3. New and revised International Financial Reporting Standards

Application of new and revised International Financial Reporting Standards

Effective January 1, 2016, the Company adopted the following new and amended IFRSs that were issued by the IASB. The application of these IFRS Standards did not have a material impact to the Company's unaudited condensed interim consolidated financial statements.

(i) Amended standard IAS 1, Presentation of Financial Statements
The amendments to IAS 1 deal with clarification of materiality in terms of the presentation of financial statements, clarification of the disclosure required in the statement of financial position, statement of loss and statement of other comprehensive income, and addition of possible ways of ordering the notes in order to increase the understandability and comparability of the financial statements.

(ii) Amended standards IAS 16, Property, Plant and Equipment and IAS 38, Intangibles
The amendments to IAS 16 "Property, Plant and Equipment" and IAS 38 "Intangible Assets" prohibit the use of revenue-based depreciation for plant and equipment and significantly limit the use of revenue-based amortization for intangible assets.

(iii) Amended standard IFRS 11, Joint Arrangements
The amendments to IFRS 11 deal with the accounting for acquisitions of an interest in a joint operation.

Accounting standards issued but not yet effective

(i) Amended standard IAS 7, Statement of Cash Flows
These amendments to IAS 7 "Statement of Cash Flows" were issued to improve information provided to users of financial statements about an entity's changes in liabilities arising from financing activities. Effective for annual periods commencing on or after January 1, 2017.

(ii) Amended standard IAS 12, Income Taxes
These amendments relate to the recognition of deferred tax assets for unrealized losses associated with debt instruments measured at fair value. Effective for annual periods commencing on or after January 1, 2017.

(iii) Amended standard IFRS 7, Financial Instruments: Disclosures
The amendments to IFRS 7 outline the disclosures required when initially applying IFRS 9 Financial Instruments. Effective date January 1, 2018.

(iv) New standard IFRS 9, Financial Instruments
Replacement of IAS 39 Financial Instruments: Recognition and Measurement. Effective date January 1, 2018.

(v) New standard IFRS 15, Revenue from Contracts with Customers
IFRS 15 provides guidance on how and when revenue from contracts with customers is to be recognized, along with new disclosure requirements in order to provide financial statement users with more informative and relevant information. Effective as at January 1, 2018.

(vi) New standard IFRS 16, Leases
Effective for annual periods commencing on or after January 1, 2019, this replaces existing lease accounting guidance. All leases will be required to be reported on the statement of financial position unless certain requirements for exclusion are met.

The Company has not adopted these new and amended standards and is currently assessing the impact that these standards will have on the consolidated financial statements.

4. Prepayments

On June 30, 2016, the former management of the Company entered into a number of share purchase agreements (the "BEE Buyout Agreements") with Ingwenya Incorporated ("Ingwenya") and Serina Service AG ("Serina") (collectively the "Vendors") to acquire all of the Company's black economic empowerment partners' (the "BEE Partners") interests in the Company's South African projects except for the 17.65% equity interest in Afriminerals Holdings (Pty) Ltd. ("Afriminerals") for a total of $13,367. The Vendors represented to the Company that they are or will be the registered and beneficial owners of the respective equity interests in the Company's South African projects as at the closing date defined under the BEE Buyout Agreements. The transactions under the BEE Buyout Agreements consist of the acquisition of:

(a) 44.12% equity interest in Gubevu Consortium Investment Holdings (Pty) Ltd. ("Gubevu") for a total of $8,955 and an 18% equity interest in Lion's Head Platinum (Pty) Ltd. ("Lion's Head") for $1,099 from Ingwenya; and
(b) 8% interest in Lion's Head for $502, a 5.89% equity interest in Gubevu for $1,194 and a 33.35% equity interest in Afriminerals for $1,617 from Serina.

Pursuant to the BEE Buyout Agreements, the former management placed 100% of the consideration (the "Escrow Funds") with an escrow agent and provided certain evidence sufficient to permit the Escrow Funds to be released to the Vendors upon the change of control defined under the BEE Buyout Agreements which occurred upon the election of the new board at the Company's annual general meeting held on July 5, 2016. As at September 30, 2016, the BEE buyout transaction had not been completed and the Company is working on determining the actions and steps necessary to complete the transaction. As at September 30, 2016, the payment in the amount of $13,367 made to the Vendors was recorded as prepayments in the Company's consolidated statement of financial position.

(c) Fair value of financial instruments (continued)

(ii) Fair value measurements recognized in the statement of financial position

Financial instruments that are measured subsequent to initial recognition at fair value are grouped into a hierarchy based on the degree to which the fair value is observable. Level 1 fair value measurements are derived from unadjusted, quoted prices in active markets for identical assets or liabilities. Level 2 fair value measurements are derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability directly or indirectly. Level 3 fair value measurements are derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data.

At September 30, 2016, there were no financial assets or liabilities recognized at fair value on a non-recurring basis.
